

Job Posting: Senior Director of Digital Transformation

Location: Remote (Or in our offices in Washington DC, Nairobi, Kampala, Accra)

Background

LifeNet International is transforming healthcare across Africa, operating in Burundi, DRC, Uganda, Malawi, Kenya, and Ghana. With a network spanning over 400 church-owned health facilities, LifeNet International leverages existing health investments to significantly enhance facility performance, improve patient outcomes, and save lives. Our dedicated and growing team provides tailored medical and management training and mentoring to globally recognized standards (WHO and national governments). LifeNet International works to improve the performance of private, faith-based, non-profit health facilities because they comprise between 30%-40% of all curative health services on the continent. Every year our network saves thousands of lives by implementing evidenced-based, cost-effective interventions. Our impact has been externally validated through a comprehensive study conducted by Duke University.

Opportunity

Are you ready to lead a groundbreaking digital transformation in African healthcare? Join LifeNet International as our Senior Director of Digital Transformation and spearhead the next phase of programmatic and operational development for the organization. Reporting directly to the President of LifeNet International, this role offers a unique opportunity to drive innovation and make a tangible difference in healthcare delivery across the continent.

Responsibilities

- Unleash the power of technology to enhance patient care and operational efficiency across LifeNet International's health network in Africa.
- Champion the implementation of cutting-edge solutions, including two-way video medical care and a standardized, cloud-based health management information system (HMIS).
- Lead initiatives to expand high-speed internet access to every health facility in the LifeNet International network, ensuring connectivity reaches even the most remote

areas.

- Forge strategic partnerships and leverage digital tools to streamline processes, improve data management, and drive continuous improvement in healthcare delivery.

Qualifications

- Are you a tech-savvy leader with a passion for driving positive change? We're looking for candidates with extensive experience in the technology and digital arena, particularly in health settings in Africa.
- Do you thrive in complex environments and excel at navigating challenges? Demonstrate your senior-level systems experience, especially in the creation and management of Enterprise Resource Planning systems, with a focus on HMIS.
- Are you a visionary thinker with a track record of driving impactful initiatives? Show us your experience in developing digital solutions that have created program impact.
- Are you ready to roll up your sleeves and make things happen? We're seeking candidates with the willingness and ability to travel internationally.
- Do you share our commitment to making healthcare accessible to all? Alignment with our Christian identity is essential, along with the ability to relate to and work with all denominations in our network.

Application Process

Ready to embark on an exciting journey with LifeNet International? To apply, please submit your resume and a compelling cover letter outlining your relevant experience and why you're the perfect fit for this role to recruiting@LNinternational.org. Applications will be reviewed on a rolling basis until July 15, 2024. Only shortlisted candidates will be contacted for interviews.

LifeNet International is both an equal opportunity employer and a Christian organization. In this regard, LifeNet International conducts hiring without regard to race, color, ancestry, national origin, citizenship, age, sex, marital status, parental status, membership in any labor organization, political ideology, or disability of an otherwise qualified individual.

Pursuant to the Civil Rights Act of 1964 Section 702 (42 U.S.C. 2000e 1(a)), LifeNet International has the right to and does hire only candidates who agree with LifeNet International's Statement of Faith.
